

# System Integration and Management Consulting

## Industry Solutions/Solutions for SMEs

Freewill continuously strives to deliver new and inventive solutions where we perceive gaps in the Thai market. We aim to identify industry-specific niche offerings and solutions for Small and Medium Enterprises (SMEs).

## Garment and Fashion/Brand Manufacturing Solutions

An example is our pre-configured solution for the apparel, footwear and fashion industry based on SAP ERP and SAP AFS (SAP Apparel and Footwear Solution). Built in collaboration with attune Consulting - the first global provider of SAP solutions focused entirely and exclusively on this industry - we have built extensive and practical knowledge of the business combined with intimate knowledge of SAP solutions, enabling us to make members of the Thai garment and fashion manufacturing industry more competitive by improving their planning and supply chain management capabilities.

Solutions for garment manufacturers and Fashion Brands include efficient Master Data Management of (seasonal) products with style, colour, size attributes, Order-to-Cash cycle, Make to Order (MTO) and Make to Stock (MTS) manufacturing with subcontracted operations, Production Scheduling, Materials Requirements Planning (MRP), Procurement, Quality Management and Product Costing.
